APPOINTMENTS

Our clinic operates on an appointment system. A standard appointment is 15 minutes. If you feel you require additional time with your doctor, please advise the receptionist when booking your appointment.

Patients are seen in order of appointment time. We understand doctors can run late, to help overcome this we recommend booking a longer appointment. If you require a number of procedures or if you feel you need a longer time, you will not incur a higher fee if you do not use this time. We also recommend phoning the clinic before your appointment time so reception can advise the best time for you to arrive.

New patient appointments are booked as a long appointment to allow time for a full medical history to be taken as well as addressing your current condition.

Emergencies are dealt with as they arrive, and this may affect your waiting time.

You can book online 24/7 through Hotdoc. This can be accessed through our website, Hotdoc or our Facebook page. Hotdoc have an app available for download on your Iphone or Android.

Missed appointments on multiple occasions may incur a missed appointment fee.

We appreciate you tell us as soon as possible if you think you may be late or need to cancel your appointment. Sometimes your appointment may need to be rescheduled if you are late.

URGENT MEDICAL

If you require urgent medical assistance at home, please contact the Ambulance Service immediately on '000'. If an urgent medical situation arises whilst at the surgery, please inform the receptionist immediately.
